

PETER SHANAHAN, Ph.D.
HYDROANALYSIS, INC.

481 Great Road, Suite 3
Acton, MA 01720
Telephone: 978 263-1092
Fax: 978 263-8910
E-mail: pshanahan@hydroanalysisinc.com

Education

Ph.D., Environmental Engineering, Massachusetts Institute of Technology, Cambridge, Massachusetts, 1982
M.S., Environmental Earth Sciences, Stanford University, Stanford, California, 1974
B.S., Civil Engineering, Massachusetts Institute of Technology, Cambridge, Massachusetts, 1973
B.S., Earth and Planetary Sciences, Massachusetts Institute of Technology, Cambridge, Massachusetts, 1973

Professional Experience

HydroAnalysis, Inc.

Consulting Engineer, Acton, Massachusetts (1988–present)

Private practitioner offering services in hydrology, environmental water quality, computer modeling, and expert testimony. Dr. Shanahan has undertaken a wide variety of projects involving environmental water quality, waste site characterization and remediation, water resources development, and hydrology. Computer modeling applications have included ground-water flow and transport; stream and reservoir water quality; thermal discharges; stormwater hydrology and quality; nonpoint source pollution; and combined sewer system hydraulics. Dr. Shanahan has provided expert testimony on a proposed low-level radioactive waste disposal site, ground-water contamination and transport, surface-water flooding and water quality, and remediation of hazardous waste sites. HydroAnalysis' clients have included engineering firms, municipalities, state and federal agencies, citizen groups, private individuals, industrial firms, trade associations, international agencies, attorneys, and research institutions.

Massachusetts Institute of Technology

Senior Lecturer, Cambridge, Massachusetts (1996–2014)

Senior Lecturer in the Department of Civil and Environmental Engineering at the Massachusetts Institute of Technology. Dr. Shanahan taught undergraduate and graduate courses on the fate and transport of chemicals in the environment and environmental engineering. He also directed student projects that studied non-point source water quality in Singapore, rainwater harvesting in Rwanda, drinking-water supply in Thailand and Haiti, stream water quality in Lebanon and Massachusetts, hazardous waste site remediation in Massachusetts, and stream temperature and habitat protection in the Pacific Northwest.

ERT, Inc. (later named ENSR Corporation and now AECOM)*Senior Water Resources Engineer, Acton, Massachusetts (1981–1988)*

Progressive responsibility as technical specialist, supervisor, and group manager. At the conclusion of his employment at ENSR, Dr. Shanahan was the Manager of the Water Resources Section with managerial responsibility for a staff of ten hydrologists and environmental engineers. Dr. Shanahan served as project or task manager of a variety of studies related to water resources and hazardous waste including water-quality modeling of industrial discharges, assessment of hydrologic and environmental impacts, ground-water supply studies, design of hazardous waste site remedial actions, and development of ground-water flow and transport models.

International Institute for Applied Systems Analysis*Research Assistant, Laxenburg, Austria (1980)*

Conducted field studies and research wind-driven circulation and sediment transport as a contributor to a case study of Lake Balaton, Hungary.

Massachusetts Institute of Technology*Graduate Research and Teaching Assistant, Cambridge, Massachusetts (1978–1981)*

As a research assistant, developed and applied computer models of wind-driven circulation and eutrophication in shallow lakes, and modified and tested a computer model of temperature in a power plant cooling lake. As a teaching assistant, aided in graduate course in water quality and undergraduate course in wastewater treatment.

Resource Analysis, Inc. (now a part of CDM-Smith)*Water-Resources Engineer, Waltham, Massachusetts (1976–1979)*

Responsible for management of technical projects to develop a flow and reservoir operation model of the Cumberland River; a hydrologic modeling system as part of a comprehensive drainage study for Henrico County, Virginia; and the U.S. Army Corps of Engineers model for closed-conduit hydraulic transients in hydropower and pumping systems. Also supervised junior technical staff and managed computer equipment.

Bechtel, Inc.*Hydrothermal Engineer, San Francisco, California and Gaithersburg, Maryland (1974–1976)*

Responsible for engineering studies of hydrothermal, hydraulic, and coastal engineering problems and systems. Analyzed and designed cooling ponds, effluent discharge structures, evaporation ponds, and other structures and systems associated with waste heat disposal from nuclear and fossil-fuel power generating facilities. Also contributed to a field dye dispersion study and a comprehensive coastal hydrographic characterization.

Professional Activities

Affiliations

Fellow, American Society of Civil Engineers (Committee on Hydrologic Transport and Dispersion, Chairman 1989-1990)

Association of Ground Water Scientists and Engineers (Editorial Board, Journal of Ground Water, 1990-1992)

American Geophysical Union

International Water Association (Task Group on River Water Quality Modeling, 1996-2002; Specialist Group on Systems Analysis and Integrated Assessment, 2000-2012)

Conservation Commission, Acton, Massachusetts, 1990-1996

Registration

Professional Engineer (Civil), Massachusetts

Professional Engineer, Maine

Professional Engineer (Environmental), Rhode Island

Expert Testimony

Dr. Shanahan has testified as an expert witness on over sixty occasions on matters in civil lawsuits and environmental permit hearings. He has provided sworn testimony at eleven civil trials and twelve adjudicatory hearings including testimony in the case Florida v. Georgia before the U.S. Supreme Court.

Courses Taught and Offered

Courses in the Department of Civil and Environmental Engineering, Massachusetts Institute of Technology:

Course 1.34, Waste Containment and Site Remediation Technology, 2001-2009.

Course 1.013, Senior Civil and Environmental Engineering Design. 2007-2013.

Course 1.782, Environmental and Geoenvironmental M.Eng. Project. 1996-2014.

Course 1.083, Environmental Health Engineering. 2006-2011.

Course 1.725J, Chemicals in the Environment: Fate and Transport. 2005-2011.

Course 1.85, Water and Wastewater Treatment Engineering. 2004-2007.

Course 1.096, Environmental Engineering Clinic. 2005-2006.

Course 1.061/1.61, Transport Processes in the Environment. 2001.

Radiological Risk Assessment and Environmental Analysis Course, Bristol, United Kingdom. ITC School - Meiringen, Switzerland. June 22-26, 2009.

Saturated Zone Transport and Surface-Water Transport, Training Course in Environmental Risk Assessment Analysis for the U.S. Nuclear Regulatory Commission, Bethesda, Maryland.

January 27 and 28, 2009.

Course ESD 1.7, Water Pollution Analysis, Master's course in Engineering for Sustainable Development, Cambridge University, Cambridge, United Kingdom. 2004-2005 academic year.

Ground-water Transport and Computer Codes for Estimating Transport, Emerging Topics in Radiation Protection and Risk Assessment, Kiawah Island, South Carolina. Risk Assessment Corporation. March 17, 2004.

Course CEE172, Fate and Transport of Chemicals in the Environment, Department of Civil and Environmental Engineering, Tufts University. 2003-2004 academic year.

Specialty Course on Diffuse Pollution Management, Vancouver, British Columbia, Canada. Technomic Publishing Company, Inc. June 25-26, 1998. Specialty Course on Diffuse Pollution Management, Vancouver, British Columbia, Canada. Technomic Publishing Company, Inc. June 25-26, 1998.

Theses Supervised

Julia Choi, 1997. The Study of Biological Interactions using Water Quality Modeling: Massachusetts Military Reservation, Ashumet Pond. Master of Engineering, MIT.

Seth J. Schneider, 1997. Hydrothermal and Water Quality Modeling for Evaluation of Ashumet Pond Trophic State. Master of Engineering, MIT.

Tina L. Lin, 1997. Analysis of Geologic Parameters on Recirculating Well Technology Using 3-D Numerical Modeling: Massachusetts Military Reservation, Cape Cod. Master of Engineering, MIT.

Amy M. Rolfs, 1998. Interactive GIS Approach to Generate Capture Curves at the Massachusetts Military Reservation, Cape Cod, Massachusetts. Master of Engineering, MIT.

Elizabeth Shea, 2000. Optimization Study of a Pump-and-Treat System at Massachusetts Military Reservation. Master of Engineering, MIT.

Daniele S. Lantagne, 2001. Trihalomethane Production in Household Water Filtration Systems in Rural Haiti. Master of Engineering, MIT

Ka Yan Leung, 2001. One-Dimensional Model of Fecal Coliform in Nahr Ibrahim River (Lebanon). Master of Engineering, MIT.

Peter M. Oates, 2001. Solar Disinfection for Point of Use Water Treatment in Haiti. Master of Engineering, MIT.

Nadine van Zyl, 2001. Sodium Hypochlorite Generation for Household Water Disinfection in Haiti. Master of Engineering, MIT.

Farzana S. Mohamed, 2001. Household-level point-of-use water filtration system in Haiti : strategies for program management and sustainability. Master of City Planning, Department of Urban Studies and Planning, and Master of Engineering, Department of Civil and Environmental Engineering, MIT.
